

## SUFFOLK YACHT HARBOUR: COVID-19 GUIDANCE

From 27<sup>th</sup> January, England moved to Plan A measures under its COVID-19 strategy.

As a result, face coverings will not be required by law in indoor venues, but the Government asks members of the public to consider wearing one in crowded, enclosed spaces where you may be in contact with people you do not normally meet. SYH respects the decision of anyone who wishes to wear a face covering whilst on the premises.

SYH is continuing day-to-day operations and site maintenance seven days a week. Staff remain vigilant to the risks of COVID-19 and the Omicron variant and measures are in place to limit the spread of any potential infection.

Shower and toilet facilities are open to site users and the keypad code is available from the berthing office. Whilst regular cleaning will continue, please be aware of the increased risk of using shared facilities.

SYH encourages adherence to the UK Government's Covid restrictions; [full details can be found here](#)

SYH is committed to supporting its customers and ensuring the safety of all vessels at the harbour. The team is available via the contact details below to answer queries or discuss any concerns. Any future announcements will be made via the SYH website, email newsletter (sign up via the website) and social media pages.
